## Biography

Founded in 2015 by lead singer Scott McLaughlin, **The Scotty Mac Band** is a 4 piece, high energy, contemporary country music band functioning as a support act for national artists.

Scott McLaughlin grew up in a small Southern California town surrounded by dairy farms, ranches, and horse shows. Scott's love for music began with listening to the classic rock stylings of *Lynyrd Skynyrd* and *The Allman Brothers* on the radio. His passion for country music took off like a rocket after receiving his first guitar from his father at age 13. With a range of influences from *Garth Brooks* to *Fleetwood Mac*, Scott began writing and performing his own music in high school. He continued to hone his music and vocal talent performing solo acoustic shows weekly in small L.A. bars. Many nights sharing the stage with local country upstart *Brett Young*.

Fans can expect to hear music rooted in old school country mixed with today's contemporary sound. Scott's honest, simple approach to life easily translates into music audiences can relate to. He stylistically blends the sounds of modern country with the traditional instrumentation and story-telling lyrics of the genre's roots. Scott strives to provide an authentic country sound for today's country listeners by staying true to his old school favorites and background.

In 2021, Scott released singles "**Somewhere in a Bar**", "**A Little More Everyday**", and in 2022 "**Beer To Beer**", as follow-ups to the 2018 EP "**Starts With A Girl**". Recorded in Nashville and produced by *Brad Hill*. They can be found on all digital music streaming platforms. With over thirty years of seasoned musicianship this professional and dynamic band has proven to get your audience pumped and on their feet. Band members include: *Scott McLaughlin*, lead male vocalist/guitar; *John Geiger*, drums/percussion; *Brad Winchell* on bass guitar and *Bryan Karijanian* on lead guitar/back up vocals. The Scotty Mac Band is authentic country music for today's country audience.

"In an age of an ever expanding landscape in country music, Scotty Mac is carving out a space of his own with every performance he gives. An inspiring writer, performer, country music is where he belongs. His EP "Starts With A Girl" couldn't be more relateable, and for a second I thought we went to High School together. Get to know Scotty Mac early, he's gonna be around for a while."

**Graham Bunn, Host of USA Network's Real Country Nashville, TN**

"If you're looking for a band to play a few songs the audiences will know. A band with originals that people will love at first listen. True professionals from the time of first contact till mic drop. Catch this star who is on the rise...The Scotty Mac Band"

**Dan Weir, Program Director Froggy 92.9 KFGY Santa Rosa, CA**
